

# Brite Wash RT

## High Foam Wash Soap

A black circular icon with the words "Data Sheet" written in white, bold, sans-serif font.

### Suggested Uses

Ideally suited for all painted train surface wash operations. This biodegradable formula loosens and rinses away stubborn carbon deposits without leaving a film or streaking.

Gentle on hands and will not harm paint, rubber, vinyl or chrome. May be applied through any wash arch, foam brush or spray wash applicator. Contains special brush and cloth lubricant for longer brush life.

### Application

**Manual Cleaning:** Dilute with 12 - 50 ml per litre of water. Apply with brush, sponge or cloth. Rinse thoroughly with clean water.

**Automatic Machine:** Adjust feed ratio to produce desired amounts of foam and cleaning performance. 1:100 is recommended.

**Brite Wash RT is available in 4 litre, 20 litre, 205 litre containers.**
