Data Sheet

Suggested Uses

SCALE-A-WAY is a special blend of mild acids and detergents designed to perform the toughest cleaning tasks. Its specialty blend is ideal for use in water tanks, boilers, cooling towers... almost anywhere calcium, lime and rust are present.

SCALE-A-WAY is non-toxic and can be used in kitchen areas to de-scale dishwashers and coffee pots.

Application

Dilutions: Water tanks, boilers and cooling towers use 1 part SCALE-A-WAY to 20 parts water. Let mixture penetrate surface for at least 15 minutes.

Kitchen: Dishwashers and hot tables use 1 part SCALE-A-WAY to 40 parts water. Spray or pour 250ml of the mixture, let stand for 5 minutes, then turn on your dishwasher or rinse your hot table. For coffee pots or teakettles use 1 part SCALE-A-WAY to 50 parts water. Let stand for 5 minutes and rinse well

Drain Maintenance: Use 250ml of SCALE-A-WAY. Pour down drain. Let stand for 5 minutes.

SCALE-A-WAY is available in 1 litre, 4 litre, 20 litre, 205 litre container

- Non-toxic
